## Profile

I'm an Architect turned UX designer passionate about crafting exceptional experiences through aesthetics and user-centric design. Also a Creative problem solver with a keen eye for detail, bringing innovation, empathy, and a unique perspective to every project.

## Experience

Feb '23–Present **CEO**

Employer Grants

As the CEO of Employer Grants, I gained expertise in grant acquisition, strategic planning, team management, and client relations. I utilized my architecture background and tech skills to help US businesses secure funding and achieve their goals.

Sep '21–Feb '23

Repair Lab

**Co-Founder, COO**

Before founding Employer Grants, I was the COO of Repair Lab, a startup that specializes in fixing everything from busted laptops to shattered phone screens. I started out as the resident repair guru, but quickly moved up the ranks to manage the team and deliver top-notch customer service.

Sep '21–Jan '23

Self Employed

**Freelance Architect**

During my stint as a freelance architect, I honed my design prowess and project management abilities. Working closely with clients, I translated their visions into innovative architectural concepts. From inception to execution, I delivered tailored and exceptional solutions that brought their ideas to life.

Nov '22–Jan '23

IH Group Corporate

**Junior Architect**

During my stint as a freelance architect, I honed my design prowess and project management abilities. Working closely with clients, I translated their visions into innovative architectural concepts. From inception to execution, I delivered tailored and exceptional solutions that brought their ideas to life.

Mar '22–Aug '23

Matyoc Labs

**Graphic Designer**

As a graphic designer at Matyoc Labs, I created visually stunning designs for logos and UI, while also exploring other design fields. I gained valuable experience in design thinking, project management, and collaborating with cross-functional teams. It was an exciting and rewarding opportunity to grow both professionally and creatively.
